HROBML03

RRID:CVCL_1D09

Type: Cell Line

Proper Citation

RRID:CVCL_1D09

Cell Line Information

URL: https://web.expasy.org/cellosaurus/CVCL_1D09

Proper Citation: RRID:CVCL_1D09

Description: Cell line HROBML03 is a Cancer cell line with a species of origin Homo sapiens (Human)

Sex: Male

Disease: Lung large cell carcinoma

Defining Citation: [PMID:25069049](#)

Comments: Population: Caucasian., Problematic cell line: Contaminated. The STR profile is identical to that of the NCI-H460 cell line. Contamination confirmed from personal communication of Linnebacher, Michael. Originally thought to originate from the resection of the brain metastasis of a 47 year old female Caucasian patient with a non-small cell lung carcinoma..

Category: Cancer cell line

Organism: Homo sapiens (Human)

Name: HROBML03

Cross References: cancercellines:CVCL_1D09, CLS:300801, Wikidata:Q54895235

ID: CVCL_1D09

Hierarchy: cvcl_0459

Record Creation Time: 20220427T220559+0000

Record Last Update: 20260905T180738+0000

Ratings and Alerts

No rating or validation information has been found for HROBML03.

Warning: Problematic cell line: Contaminated. The STR profile is identical to that of the NCI-H460 cell line. Contamination confirmed by personal communication of Linnebacher M. Originally thought to originate from the resection of the brain metastasis of a 47 year old female Caucasian patient with a non-small cell lung carcinoma.

Registration: International Cell Line Authentication Committee, Register of Misidentified Cell Lines; ICLAC-00587.

Population: Caucasian., Problematic cell line: Contaminated. The STR profile is identical to that of the NCI-H460 cell line. Contamination confirmed from personal communication of Linnebacher, Michael. Originally thought to originate from the resection of the brain metastasis of a 47 year old female Caucasian patient with a non-small cell lung carcinoma..
