HET-2A

RRID:CVCL_4T83

Type: Cell Line

Proper Citation

RRID:CVCL_4T83

Cell Line Information

URL: https://web.expasy.org/cellosaurus/CVCL_4T83

Proper Citation: RRID:CVCL_4T83

Description: Cell line HET-2A is a Transformed cell line with a species of origin Homo sapiens (Human)

Sex: Female

Defining Citation: [PMID:1703038](#)

Comments: Karyotypic information: Hypotriploid karyotype (PubMed=1703038)., Problematic cell line: Probably contaminated. Shown not to be originating from the normal human esophageal cell HE-451 as previously thought and to be of a female origin (PubMed=1703038)..., Group: Patented cell line.

Category: Transformed cell line

Organism: Homo sapiens (Human)

Name: HET-2A

Cross References: Wikidata:Q54882926

ID: CVCL_4T83

Record Creation Time: 20220427T220336+0000

Record Last Update: 20260815T233738+0000

Ratings and Alerts

No rating or validation information has been found for HET-2A.

Warning: Problematic cell line: Probably contaminated. Shown not to be originating from the normal human esophageal cell HE-451 as previously thought and to be of a female origin (PubMed=1703038).

Karyotypic information: Hypotriploid karyotype (PubMed=1703038)., Problematic cell line: Probably contaminated. Shown not to be originating from the normal human esophageal cell HE-451 as previously thought and to be of a female origin (PubMed=1703038)..

Group: Patented cell line. **Warning:** Problematic cell line: Probably contaminated. Shown not to be originating from the normal human esophageal cell HE-451 as previously thought and to be of a female origin (PubMed=1703038).

Registration: International Depository Authority, American Type Culture Collection (ATCC); CRL-10210.

Karyotypic information: Hypotriploid karyotype (PubMed=1703038)., Problematic cell line: Probably contaminated. Shown not to be originating from the normal human esophageal cell HE-451 as previously thought and to be of a female origin (PubMed=1703038)..

Group: Patented cell line. **Warning:** Discontinued: ATCC; CRL-10210

Karyotypic information: Hypotriploid karyotype (PubMed=1703038)., Problematic cell line: Probably contaminated. Shown not to be originating from the normal human esophageal cell HE-451 as previously thought and to be of a female origin (PubMed=1703038)..

Group: Patented cell line.
