BEL-7402

RRID:CVCL_5492

Type: Cell Line

Proper Citation

RRID:CVCL_5492

Cell Line Information

URL: https://web.expasy.org/cellosaurus/CVCL_5492

Proper Citation: RRID:CVCL_5492

Description: Cell line BEL-7402 is a Cancer cell line with a species of origin Homo sapiens (Human)

Sex: Female

Disease: Human papillomavirus-related endocervical adenocarcinoma

Defining Citation: [PMID:1849045](#), [PMID:6154311](#), [PMID:6275024](#), [PMID:14571772](#), [PMID:23167424](#), [PMID:23505090](#), [PMID:28807831](#)

Comments: Miscellaneous: Formerly the CCRID database had 2 entries describing this cell line (3131C0001000700010, 3142C0001000000035). They were the sole source for the STR profile of this entry., Population: African American., Problematic cell line: Contaminated. Shown to be a HeLa derivative (PubMed=28807831). Originally thought to originate from a 53 year old male patient with a hepatocellular carcinoma..

Category: Cancer cell line

Organism: Homo sapiens (Human)

Name: BEL-7402

Synonyms: Bel-7402, BEL 7402, Bel 7402, BEL7402, Bel7402

Cross References: BTO:BTO_0004050, EFO:EFO_0022709, ChEMBL-Cells:ChEMBL3307770, ChEMBL-Targets:ChEMBL614279, Cosmic:1499247, Cosmic:2773179, GEO:GSM936754, GEO:GSM1374400, PRIDE:PXD015917, PubChem_Cell_line:CVCL_5492, TOKU-E:3571, Wikidata:Q54795968

ID: CVCL_5492

Hierarchy: cvcl_0030

Record Creation Time: 20220427T215358+0000

Record Last Update: 20260904T021635+0000

Ratings and Alerts

No rating or validation information has been found for BEL-7402.

Warning: Problematic cell line: Contaminated. Shown to be a HeLa derivative (PubMed=28807831). Originally thought to originate from a 53 year old male patient with a hepatocellular carcinoma.

Registration: International Cell Line Authentication Committee, Register of Misidentified Cell Lines; ICLAC-00549.

Miscellaneous: Formerly the CCRID database had 2 entries describing this cell line (3131C0001000700010, 3142C0001000000035). They were the sole source for the STR profile of this entry., Population: African American., Problematic cell line: Contaminated. Shown to be a HeLa derivative (PubMed=28807831). Originally thought to originate from a 53 year old male patient with a hepatocellular carcinoma..
