ACC-2

RRID:CVCL_6872

Type: Cell Line

Proper Citation

CCTCC Cat# GDC0048, RRID:CVCL_6872

Cell Line Information

URL: https://web.expasy.org/cellosaurus/CVCL_6872

Proper Citation: CCTCC Cat# GDC0048, RRID:CVCL_6872

Description: Cell line ACC-2 is a Cancer cell line with a species of origin Homo sapiens (Human)

Sex: Female

Disease: Human papillomavirus-related endocervical adenocarcinoma

Defining Citation: [PMID:15495191](#), [PMID:19557180](#), [PMID:20143388](#), [PMID:21868764](#), [PMID:26116706](#)

Comments: Miscellaneous: Formerly the CCRID database had 3 entries describing this cell line (3111C0001CCC000272, 3131C0001000700062, 3142C0001000000048). They were one of the sources for the STR profile of this entry., Population: African American., Problematic cell line: Contaminated. Shown to be a HeLa derivative (PubMed=19557180; PubMed=20143388; PubMed=21868764; PubMed=26116706). Originally thought to originate from a 28 year old female patient with a salivary gland adenoid cystic carcinoma..

Category: Cancer cell line

Organism: Homo sapiens (Human)

Name: ACC-2

Synonyms: Acc-2, ACC2

Cross References: BioSample:SAMN03151659, CCTCC:GDC0048, Cosmic:932295, Wikidata:Q54608098

ID: CVCL_6872

Vendor: CCTCC

Catalog Number: GDC0048

Hierarchy: cvcl_0030

Record Creation Time: 20220427T215126+0000

Record Last Update: 20260816T001728+0000

Ratings and Alerts

No rating or validation information has been found for ACC-2.

Warning: Problematic cell line: Contaminated. Shown to be a HeLa derivative (PubMed=19557180; PubMed=20143388; PubMed=21868764; PubMed=26116706). Originally thought to originate from a 28 year old female patient with a salivary gland adenoid cystic carcinoma.

Registration: International Cell Line Authentication Committee, Register of Misidentified Cell Lines; ICLAC-00357.

Miscellaneous: Formerly the CCRID database had 3 entries describing this cell line (3111C0001CCC000272, 3131C0001000700062, 3142C0001000000048). They were one of the sources for the STR profile of this entry., Population: African American., Problematic cell line: Contaminated. Shown to be a HeLa derivative (PubMed=19557180; PubMed=20143388; PubMed=21868764; PubMed=26116706). Originally thought to originate from a 28 year old female patient with a salivary gland adenoid cystic carcinoma..
