Minnesota EE

RRID:CVCL_8264

Type: Cell Line

Proper Citation

ATCC Cat# CCL-4, RRID:CVCL_8264

Cell Line Information

URL: https://web.expasy.org/cellosaurus/CVCL_8264

Proper Citation: ATCC Cat# CCL-4, RRID:CVCL_8264

Description: Cell line Minnesota EE is a Cancer cell line with a species of origin Homo sapiens (Human)

Sex: Female

Disease: Human papillomavirus-related endocervical adenocarcinoma

Defining Citation: [PMID:566722](#), [PMID:1246601](#), [PMID:4864103](#), [PMID:5641128](#), [PMID:5668122](#), [PMID:13472685](#), [PMID:14185313](#), [PMID:20143388](#)

Comments: Population: African American., Problematic cell line: Contaminated. Shown to be a HeLa derivative (PubMed=4864103; PubMed=5641128; PubMed=566722; PubMed=1246601; PubMed=20143388). Originally thought to originate from the esophageal epithelium of a male infant with a tracheo-esophageal fistula..

Category: Cancer cell line

Organism: Homo sapiens (Human)

Name: Minnesota EE

Synonyms: Minnesota-EE, Minn. EE, Minn EE

Cross References: ATCC:CCL-4, BioSample:SAMN03151744, Wikidata:Q54905747

ID: CVCL_8264

Vendor: ATCC

Catalog Number: CCL-4

Hierarchy: cvcl_0030

Record Creation Time: 20220427T220809+0000

Record Last Update: 20260905T181147+0000

Ratings and Alerts

No rating or validation information has been found for Minnesota EE.

Warning: Problematic cell line: Contaminated. Shown to be a HeLa derivative (PubMed=5641128; PubMed=566722; PubMed=1246601; PubMed=20143388).

Registration: International Cell Line Authentication Committee, Register of Misidentified Cell Lines; ICLAC-00011.

Population: African American., Problematic cell line: Contaminated. Shown to be a HeLa derivative (PubMed=4864103; PubMed=5641128; PubMed=566722; PubMed=1246601; PubMed=20143388). Originally thought to originate from the esophageal epithelium of a male infant with a tracheo-esophageal fistula..

Warning: Discontinued: ATCC; CCL-4
Population: African American., Problematic cell line: Contaminated. Shown to be a HeLa derivative (PubMed=4864103; PubMed=5641128; PubMed=566722; PubMed=1246601; PubMed=20143388). Originally thought to originate from the esophageal epithelium of a male infant with a tracheo-esophageal fistula..
