HKMUS

RRID:CVCL_8776

Type: Cell Line

Proper Citation

RRID:CVCL_8776

Cell Line Information

URL: https://web.expasy.org/cellosaurus/CVCL_8776

Proper Citation: RRID:CVCL_8776

Description: Cell line HKMUS is a Cancer cell line with a species of origin Homo sapiens (Human)

Sex: Female

Disease: Human papillomavirus-related cervical squamous cell carcinoma

Defining Citation: [PMID:1698374](#), [PMID:2429643](#), [PMID:2448191](#), [PMID:9436037](#), [PMID:10457904](#), [PMID:20143388](#)

Comments: Population: Japanese., Problematic cell line: Contaminated. Shown to be a SKG-II-SF derivative (PubMed=20143388). Originally thought to originate from a 50 year old female patient with an uterine large cell non-keratinizing squamous cell carcinoma..

Category: Cancer cell line

Organism: Homo sapiens (Human)

Name: HKMUS

Cross References: BioSample:SAMN03151914, Cell_Model_Passport:SIDM01930, Wikidata:Q54889776

ID: CVCL_8776

Hierarchy: cvcl_8159

Record Creation Time: 20220427T220435+0000

Record Last Update: 20260815T233932+0000

Ratings and Alerts

No rating or validation information has been found for HKMUS.

Warning: Problematic cell line: Contaminated. Shown to be a SKG-II-SF derivative (PubMed=20143388). Originally thought to originate from a 50 year old female patient with an uterine large cell non-keratinizing squamous cell carcinoma.

Registration: International Cell Line Authentication Committee, Register of Misidentified Cell Lines; ICLAC-00311.

Population: Japanese., Problematic cell line: Contaminated. Shown to be a SKG-II-SF derivative (PubMed=20143388). Originally thought to originate from a 50 year old female patient with an uterine large cell non-keratinizing squamous cell carcinoma..
