Cell Line Information

URL: https://web.expasy.org/cellosaurus/CVCL_8886

Proper Citation: RRID:CVCL_8886

Description: Cell line KRJ-I is a Transformed cell line with a species of origin Homo sapiens (Human)

Sex: Male

Defining Citation: PMID:17242179, PMID:19295186, PMID:21544390, PMID:22538498, PMID:23119007, PMID:29444910, PMID:31548718, PMID:31548719

Comments: Population: Caucasian., Problematic cell line: Misclassified. Originally thought to arise from a multifocal carcinoid of the small intestine but shown to be an EBV-transformed lymphoblastoid cell line (PubMed=29444910; PubMed=31548718). Although misidentified, it has been argued that transcriptional regulation of the cells enough resemble gastroenteropancreatic neuroendocrine tumors to be used in studies (PubMed=31548719)..

Category: Transformed cell line

Organism: Homo sapiens (Human)

Name: KRJ-I

Synonyms: KRJ-1, KRJI, KRJ1

Cross References: CLO:CLO_0007120, ECACC:95041223, GEO:GSM600370, GEO:GSM830111, Wikidata:Q54900482

ID: CVCL_8886

Record Creation Time: 20220427T220708+0000

Record Last Update: 20260815T234429+0000

Ratings and Alerts

No rating or validation information has been found for KRJ-I.

Warning: Problematic cell line: Misclassified. Originally thought to arise from a multifocal carcinoid of the small intestine but shown to be an EBV-transformed lymphoblastoid cell line (PubMed=29444910; PubMed=31548718). Although misidentified, it has been argued that transcriptional regulation of the cells enough resemble gastroenteropancreatic neuroendocrine tumors to be used in studies (PubMed=31548719).
