EndoC-betaH3

RRID:CVCL_IS72

Type: Cell Line

Proper Citation

RRID:CVCL_IS72

Cell Line Information

URL: https://web.expasy.org/cellosaurus/CVCL_IS72

Proper Citation: RRID:CVCL_IS72

Description: Cell line EndoC-betaH3 is a Conditionally immortalized cell line with a species of origin Homo sapiens (Human)

Sex: Sex unspecified

Defining Citation: [PMID:26909308](#)

Comments: Characteristics: The lentiviral vector insert containing the SV40 LT and hTERT can be excised by the Cre recombinase upon addition of tamixofen. Following excision of immortalizing transgenes, cell proliferation sharply decreases and in parallel there is a massive enhancement of beta cell-specific features such as increased INS gene expression.

Category: Conditionally immortalized cell line

Organism: Homo sapiens (Human)

Name: EndoC-betaH3

Synonyms: EndoC-BH3

Cross References: Wikidata:Q54832324

ID: CVCL_IS72

Hierarchy: cvcl_is71

Record Creation Time: 20220427T215833+0000

Record Last Update: 20260905T175300+0000

Ratings and Alerts

No rating or validation information has been found for EndoC-betaH3.

No alerts have been found for EndoC-betaH3.
