HEK293-DR-GFP

RRID:CVCL_XX00

Type: Cell Line

Proper Citation

DSMZ Cat# ACC-844, RRID:CVCL_XX00

Cell Line Information

Proper Citation: DSMZ Cat# ACC-844, RRID:CVCL_XX00

Description: Cell line HEK293-DR-GFP is a Transformed cell line with a species of origin Homo sapiens (Human)

Sex: Female

Comments: Characteristics: Transfected with the tetracycline transactivator (tTA) protein, a fusion of tetR with the activation domain of HSV-1 VP16., Characteristics: Transfected with the hprtDR-GFP reporter construct that targets the DR-GFP into the hprt locus and includes a dominant selectable puroR marker. The DR-GFP construct which contains a tandem repeat of two inactive genes coding for EGFP. After transfection with an expression vector coding for the I-SceI enzyme, recombination induced by the cleavage of the I-SceI site recreates a functional EGFP.

Category: Transformed cell line

Organism: Homo sapiens (Human)

Name: HEK293-DR-GFP

Cross References: DSMZ:ACC-844, DSMZCellDive:ACC-844, Wikidata:Q94095037

ID: CVCL_XX00

Vendor: DSMZ

Catalog Number: ACC-844

Hierarchy: cvcl_v349

Record Creation Time: 20250130T071617+0000

Record Last Update: 20260830T001606+0000

Ratings and Alerts

No rating or validation information has been found for HEK293-DR-GFP.

No alerts have been found for HEK293-DR-GFP.
