Proper Citation: RRID:CVCL_UR33

Description: Cell line U-87 MG-Luc2 is a Cancer cell line with a species of origin Homo sapiens (Human)

Sex: Male

Disease: Glioblastoma

Comments: Characteristics: Stably expresses firefly luciferase under the control of the human EF1a promoter (ATCC=HTB-14-LUC2)., Population: Caucasian., Problematic cell line: Misidentified. Parent cell line (U-87MG ATCC) is not the original glioblastoma cell line established in 1968 at the University of Uppsala..

Category: Cancer cell line

Organism: Homo sapiens (Human)

Name: U-87 MG-Luc2

Cross References: ATCC:HTB-14-LUC2, cancercellines:CVCL_UR33, Wikidata:Q98133707

ID: CVCL_UR33

Hierarchy: cvcl_0022

Record Creation Time: 20220427T221639+0000

Record Last Update: 20260913T010247+0000

Ratings and Alerts

No rating or validation information has been found for U-87 MG-Luc2.

Warning: Problematic cell line: Misidentified. Parent cell line (U-87MG ATCC) is not the original glioblastoma cell line established in 1968 at the University of Uppsala. Characteristics: Stably expresses firefly luciferase under the control of the human EF1a promoter (ATCC=HTB-14-LUC2)., Population: Caucasian., Problematic cell line: Misidentified. Parent cell line (U-87MG ATCC) is not the original glioblastoma cell line established in 1968 at the University of Uppsala..
