Host Organism: mouse

Clonality: monoclonal

Comments: Discontinued; manufacturer recommendations: Immunohistochemistry; ELISA; ELISA: Use at an assay dependent dilution. GTX18700 was tested using indirect ELISA method. The testing plates were coated with HCV non-structural protein (NS), capsid protein (C) and the mixture of NS and C separately. The neat culture supernatant of hybridoma showed a strong reaction with HCV capsid protein (OD492 value > 2.0) and mixture of NS and C (OD492 value >1.5), and have no reaction with HCV non-structural protein (OD492 value 0.03). Is unsuitable for WB. Not tested in other applications. Optimal dilutions/concentrations should be determined by the end user., ELISA. The usefulness of this product in other applications has not been determined., ELISA
