pRK5 TGF beta type I receptor (T202D) Flag

RRID:Addgene_14833

Type: Plasmid

Proper Citation

RRID:Addgene_14833

Plasmid Information

URL: <http://www.addgene.org/14833>

Proper Citation: RRID:Addgene_14833

Insert Name: TGF beta type I receptor

Organism: Rattus norvegicus

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:8662796](#)

Vector Backbone Description: Backbone Marker:Genentech; Backbone Size:4700; Vector Backbone:pRK5 modified with flag; Vector Types:Mammalian Expression; Bacterial Resistance:Ampicillin

Comments: See Author's map for more information. A 9bp linker was added directly upstream of the GS domain. The linker encodes the amino acids GSM. The additional sequence does not affect plasmid function.

Plasmid Name: pRK5 TGF beta type I receptor (T202D) Flag

Relevant Mutation: Threonine 202 mutated to aspartate. Constitutively active mutant.

Record Creation Time: 20220422T221826+0000

Record Last Update: 20260829T075701+0000

Ratings and Alerts

No rating or validation information has been found for pRK5 TGF beta type I receptor (T202D) Flag.

No alerts have been found for pRK5 TGF beta type I receptor (T202D) Flag.

Data and Source Information
