pOpen-K12polLF

RRID:Addgene_165511

Type: Plasmid

Proper Citation

RRID:Addgene_165511

Plasmid Information

URL: <http://www.addgene.org/165511>

Proper Citation: RRID:Addgene_165511

Insert Name: DNA Polymerase I, Large (Klenow) Fragment

Organism: Other

Bacterial Resistance: Ampicillin

Vector Backbone Description: Vector Backbone:pBuild; Vector Types:Synthetic Biology; Bacterial Resistance:Ampicillin

Comments: DNA polymerase fragment that retains 5'-3' polymerase activity and 3'-5' exonuclease activity for removal of precoding nucleotides and proofreading, but loses 5'-3' exonuclease activity. Usable for synthesis of double-stranded DNA from single-stranded templates, filling in of receded 3' ends of DNA fragments to make 5' overhang blunt, digesting away protruding 3' overhangs, preparation of radioactive DNA probes. The plasmids in the Open Enzyme collection contain genetic parts and are not functional by themselves. Researchers can clone these enzymes into an expression vector of their choice and then transform into E. coli bacteria for expression and purification. Additional information can be found at <https://www.addgene.org/depositor-collections/open-enzyme/>.

Plasmid Name: pOpen-K12polLF

Record Creation Time: 20220422T221934+0000

Record Last Update: 20260801T080727+0000
