pDEST-HemmarR

RRID:Addgene_31222

Type: Plasmid

Proper Citation

RRID:Addgene_31222

Plasmid Information

URL: <http://www.addgene.org/31222>

Proper Citation: RRID:Addgene_31222

Insert Name: CD4-tdTom

Organism: Homo sapiens

Bacterial Resistance: Chloramphenicol and Ampicillin

Defining Citation: [PMID:21606367](#)

Vector Backbone Description: Backbone Size:10193; Vector Backbone:pAPIC-HIH; Vector Types:Insect Expression; Bacterial Resistance:Chloramphenicol and Ampicillin

Comments: Gateway destination vector for cloning any enhancer to drive expression of membrane marker CD4-tdTom The depositing laboratory recommends growing bacteria either on LB plates with 80 ug/ml Carbenicillin or in LB liquid media with 60 ug/ml Carbenicillin (a semi-synthetic ampicillin analog)

Plasmid Name: pDEST-HemmarR

Relevant Mutation: Fusion of signal peptide of Drosophila Akh gene, human CD4 transmembrane domain, tdTomato, and Kir2.1 ER exit signal.

Record Creation Time: 20220422T222135+0000

Record Last Update: 20260815T081333+0000

Ratings and Alerts

No rating or validation information has been found for pDEST-HemmarR.

No alerts have been found for pDEST-HemmarR.

Data and Source Information
