pPK719

RRID:Addgene_38149

Type: Plasmid

Proper Citation

RRID:Addgene_38149

Plasmid Information

URL: <http://www.addgene.org/38149>

Proper Citation: RRID:Addgene_38149

Insert Name: cbr-unc-119::FRT*::galk::FRT*

Organism: Caenorhabditis elegans

Bacterial Resistance: Ampicillin

Vector Backbone Description: Backbone Marker:Stratagene; Backbone Size:3000; Vector Backbone:pBluescript KSII(+); Vector Types:Worm Expression, recombineering; Bacterial Resistance:Ampicillin

Comments: This plasmid carries a complementary cassette consisting of a genomic copy of the *C. briggsae* unc-119 gene and the selectable galk marker flanked by FRT* sites in the presumptive 3' UTR of the Cbr-unc-119 gene. The 3.6 kb Cbr-unc-119::FRT*::galk::FRT* cassette can be targeted by recombineering to insert between nts 281:282 in the pCC1FOS fosmid vector backbone. In other words, this cassette can be readily inserted in all fosmids contained in the *C. elegans* library developed by Don Moerman and colleagues. We have tested the construct in fosmid recombineering and have shown that it rescues unc-119(ed3) mutants.

Plasmid Name: pPK719

Record Creation Time: 20220422T222201+0000

Record Last Update: 20260912T092639+0000

Ratings and Alerts

No rating or validation information has been found for pPK719.

No alerts have been found for pPK719.
