pT2SK

RRID:Addgene_59383

Type: Plasmid

Proper Citation

RRID:Addgene_59383

Plasmid Information

URL: <http://www.addgene.org/59383>

Proper Citation: RRID:Addgene_59383

Insert Name: TT-ISceI-kan

Organism: Synthetic

Bacterial Resistance: Ampicillin and Kanamycin

Defining Citation: [PMID:25255806](#)

Vector Backbone Description: Backbone Marker:Copley Lab; Backbone Size:1887; Vector Backbone:pHA1887, an 1887 bp fragment extending from bp 690 to bp 2576 of pUC19 (Acc. No. M77789); Vector Types:template; Bacterial Resistance:Ampicillin and Kanamycin

Comments: iGEM parts BBa_B1002 and BBa_B1006 were used to build the double terminator element. The kanamycin resistance gene was taken from pACYC177. We developed GetX (<https://sourceforge.net/projects/getx/>), a stand-alone python script that allows the user to design mutation cassettes for scarless genome editing in bacteria using our previously described two-step recombination method. Please see the document linked under the Resource Information heading above for additional information on installing and using the script.

Plasmid Name: pT2SK

Record Creation Time: 20220422T222342+0000

Record Last Update: 20260815T081723+0000

Ratings and Alerts

No rating or validation information has been found for pT2SK.
