pCiPS

RRID:Addgene_60011

Type: Plasmid

Proper Citation

RRID:Addgene_60011

Plasmid Information

URL: <http://www.addgene.org/60011>

Proper Citation: RRID:Addgene_60011

Insert Name: Pol

Organism: human spumaretrovirus (foamy virus)

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:12231167](#)

Vector Backbone Description: Backbone Marker:unknown; Backbone Size:7164; Vector Backbone:pCMV beta; Vector Types:Mammalian Expression; Bacterial Resistance:Ampicillin

Comments: ?? vectors are ""Deleted Foamy" virus vectors that only retain essential cis-acting viral sequences. The 4 plasmids required to make ?? vectors are pCiES, pCiGS??, pCiPS, and p??. The first three plasmids are helper constructs expressing Env, Gag, and Pol respectively. p?? is a deleted foamy vector backbone with a polylinker for you to insert a transgene cassette. A description of the plasmids has been published (Trobridge et al., 2002). For additional information, please see:
