HA.PKD.deltaPH

RRID:Addgene_10811

Type: Plasmid

Proper Citation

RRID:Addgene_10811

Plasmid Information

URL: <http://www.addgene.org/10811>

Proper Citation: RRID:Addgene_10811

Insert Name: PKD

Organism: Homo sapiens

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:12637538](#)

Vector Backbone Description: Backbone Marker:Invitrogen; Backbone Size:5446; Vector Backbone:pcDNA3; Vector Types:Mammalian Expression; Bacterial Resistance:Ampicillin

Comments: The HA tag on this plasmid contains a point mutation that renders it unrecognizable by the 3F10 HA antibody. It will work fine with the 12CA5 HA antibody. The PKD insert in this plasmid contains F94I, V410G and D791G mutations when compared to GenBank reference sequence NP_002733.1. Although the effect of these mutation are unknown, this is the exact plasmid used in the associated publication and it should function as described.

Plasmid Name: HA.PKD.deltaPH

Relevant Mutation: PH domain deleted (amino acids 417-545); F94I, V410G and D791G

Record Creation Time: 20220422T221524+0000

Record Last Update: 20260725T073438+0000

Ratings and Alerts

No rating or validation information has been found for HA.PKD.deltaPH.

No alerts have been found for HA.PKD.deltaPH.
