pUASTP2

RRID:Addgene_13843

Type: Plasmid

Proper Citation

RRID:Addgene_13843

Plasmid Information

URL: <http://www.addgene.org/13843>

Proper Citation: RRID:Addgene_13843

Insert Name: mini-white

Organism: Drosophila melanogaster

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:16547094](#)

Vector Backbone Description: Backbone Size:5500; Vector Backbone:pUAST; Vector Types:Insect Expression; Bacterial Resistance:Ampicillin

Comments: pUASTP2 contains a P-element target for RMCE, the mini-white gene flanked by inverted attP sites. This target cassette was constructed in the parent vector pUAST. This vector can be used to generate target lines by standard P element transgenesis. Please note that the UAS binding sites and hsp70 promoter of pUAST are outside of the exchange cassette in this vector - i.e. following RMCE, these elements will remain flanking the cassette.

Plasmid Name: pUASTP2

Record Creation Time: 20220422T221801+0000

Record Last Update: 20260815T080623+0000

Ratings and Alerts

No rating or validation information has been found for pUASTP2.

No alerts have been found for pUASTP2.
