CBFRE-EGFP

RRID:Addgene_17705

Type: Plasmid

Proper Citation

RRID:Addgene_17705

Plasmid Information

URL: <http://www.addgene.org/17705>

Proper Citation: RRID:Addgene_17705

Insert Name: CBFRE

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:17721509](#)

Vector Backbone Description: Backbone Size:3600; Vector Backbone:na; Vector Types:Mammalian Expression, Adenoviral; Bacterial Resistance:Ampicillin

Comments: CBFRE: four CBF1-binding elements from EBV (see Hsieh MCB 1996, 16:952) and the basal simian virus 40 (SV40) promoter upstream of EGFP. The sequence of the CBF1 binding element is GATCTGGAGTAACACGCCGTGGGAAAAAATTTATG. The binding site within this sequence is GTGGGAA. A SmaI+XbaI double digest should yield 3.6kb and approx. 1.2kb bands. See Reviews link in right-hand column to view Addgene's diagnostic digest of this plasmid.

Plasmid Name: CBFRE-EGFP

Record Creation Time: 20220422T222022+0000

Record Last Update: 20260801T080903+0000

Ratings and Alerts

No rating or validation information has been found for CBFRE-EGFP.

No alerts have been found for CBFRE-EGFP.

Data and Source Information

Usage and Citation Metrics

We found 10 mentions in open access literature.

Listed below are recent publications. The full list is available at [dkNET](#) .
