pWS-TK2

RRID:Addgene_20348

Type: Plasmid

Proper Citation

RRID:Addgene_20348

Plasmid Information

URL: <http://www.addgene.org/20348>

Proper Citation: RRID:Addgene_20348

Insert Name: pWS-TK2

Organism: cloning vector

Bacterial Resistance: Chloramphenicol and Ampicillin

Defining Citation: [PMID:18546598](#)

Vector Backbone Description: Backbone Size:0; Vector Backbone:N/A; Vector Types:Mouse Targeting; Bacterial Resistance:Chloramphenicol and Ampicillin

Comments: The deposited sequence file of pWS-TK2 is from compilation of previous plasmids, and only part of it has been re-sequenced. There is a gap between author's sequence and Addgene sequence that will NOT affect the use of this plasmid. Please also note that Addgene's quality control sequencing indicates that the PacI and SgfI sites present in the depositor's map are not present in the plasmid's actual sequence. pWS-TK2 is designed to have two variants of thymidine kinase gene from herpes virus.

Plasmid Name: pWS-TK2

Record Creation Time: 20220422T222050+0000

Record Last Update: 20260815T081153+0000

Ratings and Alerts

No rating or validation information has been found for pWS-TK2.

No alerts have been found for pWS-TK2.
