pAAV-hSyn-EGFP

RRID:Addgene_50465

Type: Plasmid

Proper Citation

RRID:Addgene_50465

Plasmid Information

URL: <http://www.addgene.org/50465>

Proper Citation: RRID:Addgene_50465

Insert Name: EGFP

Organism: Aequorea victoria

Bacterial Resistance: Ampicillin

Vector Backbone Description: Backbone Size:4818; Vector Backbone:pAAV; Vector Types:AAV; Bacterial Resistance:Ampicillin

Comments: These plasmids were generated as part of the Illuminating the Druggable Genome (IDG) program sponsored by the NIH Common Fund. The goal of this program is to identify, gather, and distribute information and resources for proteins that currently are not well-studied yet belong to commonly drug-targeted protein families: protein kinases, non-olfactory G-protein coupled receptors (GPCRs), and ion channels. The IDG program is designed to develop fundamental research tools for understudied proteins, elucidate their function, and disseminate the IDG-related resources and data to the greater scientific community.

Plasmid Name: pAAV-hSyn-EGFP

Record Creation Time: 20220422T222258+0000

Record Last Update: 20260829T080632+0000

Ratings and Alerts

No rating or validation information has been found for pAAV-hSyn-EGFP.

No alerts have been found for pAAV-hSyn-EGFP.

Data and Source Information
