lentiCRISPR - EGFP sgRNA 3

RRID:Addgene_51762

Type: Plasmid

Proper Citation

RRID:Addgene_51762

Plasmid Information

URL: <http://www.addgene.org/51762>

Proper Citation: RRID:Addgene_51762

Insert Name: Cas9

Organism: Synthetic

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:24336571](#)

Vector Backbone Description: Backbone Marker:Zhang lab; Vector Backbone:lentiCRISPR (pXPR_001), Addgene plasmid #49535; Vector Types:Mammalian Expression, Lentiviral, CRISPR; Bacterial Resistance:Ampicillin

Comments: gRNA target sequence GGCCACAAGTTCAGCGTGTC These six EGFP-targeting lentiCRISPRs have EGFP-targeting sgRNAs cloned into the lentiCRISPR backbone plasmid (Addgene plasmid 49535) and are used in Fig 1B of Shalem*, Sanjana* et al (2014). If you want to clone your own targeting sequences, please use the lentiCRISPR backbone plasmid (Addgene plasmid 49535), as the sgRNA Type IIs cloning site is not present in these plasmids. Special note from the Zhang lab: We are constantly improving our CRISPR reagents. Please check <https://zlab.bio/> for the most up-to-date information.

Plasmid Name: lentiCRISPR - EGFP sgRNA 3

Record Creation Time: 20220422T222304+0000

Record Last Update: 20260815T081621+0000

Ratings and Alerts

No rating or validation information has been found for lentiCRISPR - EGFP sgRNA 3.

No alerts have been found for lentiCRISPR - EGFP sgRNA 3.

Data and Source Information
