Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented July 22, 2016. A database that integrates information on the function and properties of genes and their protein products relevant to lipid-associated disorders. GOLD.db provides information such as the biology, diagnosis management, treatment and prevention of such disorders like non-insulin dependent diabetes, various hyperlipidemias, high blood pressure and atherosclerosis. Resources include the biological pathways, data sets, microarray protocols and other experimental standards, analytical tools, and reagents.

Synonyms: Genomics Of Lipid-associated Disorders database, GOLD.db Genomics Of Lipid-associated Disorders, GOLD.db

Resource Type: database, data or information resource

Defining Citation: [PMID:15588328](#)

Keywords: lipid, disorder, diabetes, insulin, hyperlipidemia, blood pressure, atherosclerosis, microarray, reagent, biology
