Description: A repository of de-identified control arm data of patients from clinical studies of Alzheimer's disease and Mild Cognitive Impairment. It provides the ability to analyze the data online with the R statistical analysis program, create and download standard reports, run complex queries, or download data to a desktop for further analysis. Additional data will be added to the database over time. Critical Path Institute consortia members and qualified researchers may upload and work on scientific data relevant to biomarkers of drug toxicity, neurodegenerative diseases, and patient-reported outcomes.

Abbreviations: CODR

Synonyms: C-Path Online Data Repository (CODR), CPATH online data repository, C-PATH Online Data Repository, C PATH On Line Data Repository

Resource Type: service resource, data repository, data analysis service, data or information resource, database, storage service resource, analysis service resource, production service resource
