Proper Citation: BrainWeb - Simulated Brain Database (RRID:SCR_003263)

Description: Database of human brain images derived from a realistic phantom and generated using a sophisticated MRI simulator. Custom simulations may be generated to match a user's selected parameters. The goal is to aid validation of computer-aided quantitative analysis of medical image data. The SBD contains a set of realistic MRI data volumes produced by an MRI simulator. These data can be used by the neuroimaging community to evaluate the performance of various image analysis methods in a setting where the truth is known. The SBD contains simulated brain MRI data based on two anatomical models: normal and multiple sclerosis (MS). For both of these, full 3-dimensional data volumes have been simulated using three sequences (T1-, T2-, and proton-density-(PD-) weighted) and a variety of slice thicknesses, noise levels, and levels of intensity non-uniformity. These data are available for viewing in three orthogonal views (transversal, sagittal, and coronal), and for downloading.

Synonyms: BrainWeb, BainWeb SBD, BrainWeb Simulated Brain Database

Resource Type: data or information resource, database, atlas

Defining Citation: PMID:16750398

Keywords: human brain, human brain image, human brain database, mri simulation, brain

imaging

Funding:

Availability: Available to the scientific community

Resource Name: BrainWeb - Simulated Brain Database

Resource ID: SCR_003263

Alternate IDs: nif-0000-00020

Record Creation Time: 20220129T080218+0000

Record Last Update: 20250521T060913+0000

Ratings and Alerts

No rating or validation information has been found for BrainWeb - Simulated Brain Database.

No alerts have been found for BrainWeb - Simulated Brain Database.
