Proper Citation: Minimum Information About a Simulation Experiment (RRID:SCR_003800)

Description: A set of guidelines (community effort) suitable for use with any structured format for simulation experiments to identify the Minimal Information About a Simulation Experiment necessary to enable the reproducible simulation experiments. The Guidelines list the information that a modeller needs to provide to enable the execution and reproduction of a numerical simulation experiment, derived from a given set of quantitative models. MIASE is designed to help modelers and software tools to exchange their simulation settings and to foster collaboration. In 2011, he MIASE guidelines were accepted by researchers from 19 different institutes.

Abbreviations: MIASE

Synonyms: MIASE Guidelines

Resource Type: standard specification, data or information resource, narrative resource

Defining Citation: PMID:21552546

Keywords: simulation

Funding:

Resource Name: Minimum Information About a Simulation Experiment

Resource ID: SCR_003800

Alternate IDs: nlx_158097

Record Creation Time: 20220129T080221+0000

Record Last Update: 20250509T055625+0000

Ratings and Alerts

No rating or validation information has been found for Minimum Information About a Simulation Experiment.

No alerts have been found for Minimum Information About a Simulation Experiment.
