**Proper Citation:** CADRO (RRID:SCR\_004046)

**Description:** A classification system developed by the National Institute on Aging and the Alzheimer's Association that can be used to integrate and compare Alzheimer's disease (AD) research portfolios from public and private organizations supporting AD research in the US and abroad. The CADRO was constructed as a three-tier classification system organized around seven major categories: five in research and two resource-related: \* Category A. Molecular Pathogenesis and Pathophysiology of Alzheimer's Disease \* Category B. Diagnosis, Assessment and Disease Monitoring \* Category C. Translational Research and Clinical Interventions \* Category D. Epidemiology \* Category E. Care, Support and Health Economics of Alzheimer's Diseases \* Category F. Research Resources \* Category G. Consortia and Public Private Partnerships \* Category H. Alzheimer's Disease - Related Dementias Using information from project abstracts and research aims, the above categories were stratified into research topics and these were further divided into research themes. The three levels of classification are meant to enable a fine-grained portfolio analysis that can inform strategic planning and funding decisions. The CADRO was developed as a dynamic portfolio analysis tool that can be used to: (i) capture the changing landscape of AD research funded by different organizations, (ii) identify opportunities for coordination of support for AD research, and (iii) identify funding gaps as well as areas of overlap within and across organizations.

**Abbreviations:** CADRO

**Synonyms:** Common Alzheimer's Disease Research Ontology, Common Alzheimer's Disease Research Ontology (CADRO)

**Resource Type:** data or information resource, controlled vocabulary

**Keywords:** late adult human, alzheimer, aging

**Related Condition:** Alzheimer's disease, Aging

**Funding:** NIA

**Resource Name:** CADRO

**Resource ID:** SCR\_004046

**Alternate IDs:** nlx\_158474

**Alternate URLs:** <http://www.nia.nih.gov/research/dn/cadro-outline>,
