PolySearch

RRID:SCR_005291

Type: Tool

Proper Citation

PolySearch (RRID:SCR_005291)

Resource Information

URL: <http://wishart.biology.ualberta.ca/polysearch/index.htm>

Proper Citation: PolySearch (RRID:SCR_005291)

Description: A web-based tool that supports more than 50 different classes of queries against nearly a dozen different types of text, scientific abstract or bioinformatic databases. The typical query supported by PolySearch is Given X, find all Y"s where X or Y can be diseases, tissues, cell compartments, gene/protein names, SNPs, mutations, drugs and metabolites. PolySearch also exploits a variety of techniques in text mining and information retrieval to identify, highlight and rank informative abstracts, paragraphs or sentences.

Abbreviations: PolySearch

Resource Type: data analysis service, production service resource, service resource, analysis service resource

Keywords: text mining, disease, gene, protein, drug, metabolite, snp, gene sequence, pathway, tissue, gene family, subcellular localization, organ

Resource Name: PolySearch

Resource ID: SCR_005291

Alternate IDs: OMICS_01194

Record Creation Time: 20220129T080229+0000

Record Last Update: 20260806T054412+0000

Ratings and Alerts

No rating or validation information has been found for PolySearch.

No alerts have been found for PolySearch.
