Odor Molecules DataBase

RRID:SCR_007286

Type: Tool

Proper Citation

Odor Molecules DataBase (RRID:SCR_007286)

Resource Information

URL: <http://senselab.med.yale.edu/odordb>

Proper Citation: Odor Molecules DataBase (RRID:SCR_007286)

Description: OdorDb is a database of odorant molecules, which can be searched in a few different ways. One can see odorant molecules in the OdorDB, and the olfactory receptors in ORDB that they experimentally shown to bind. You can search for odorant molecules based on their attributes or identities: Molecular Formula, Chemical Abstracts Service (CAS) Number and Chemical Class. Functional studies of olfactory receptors involve their interactions with odor molecules. OdorDB contains a list of odors that have been identified as binding to olfactory receptors.

Abbreviations: OdorDB

Resource Type: data or information resource, database

Keywords: genetics, cellular, molecular, olfactory, receptor, training material

Related Condition: Aging

Funding: Human Brain Project ;
NIMH ;
NIA ;
NICD ;
