Proper Citation: Scientific Review Committee (RRID:SCR_008652)

Description: Many science fairs have a group of people called a Scientific Review Committee (or SRC) that reviews each project application to ensure that all safety and legal requirements will be met and that the appropriate forms have been completed. The committee also reviews the completed project displays. Typically, a Scientific Review Committee is composed of at least three people: a biomedical scientist, a physical scientist, and a science teacher. Some fairs also have an Institutional Review Board (IRB), which reviews all proposed projects that in any way involve human beings. An IRB's purpose is to ensure that the project will not present undue risk to the subjects.

Abbreviations: SRC

Resource Type: community building portal, data or information resource, portal

Resource Name: Scientific Review Committee

Resource ID: SCR_008652

Alternate IDs: nif-0000-33367

Record Creation Time: 20220129T080248+0000

Record Last Update: 20260815T182348+0000

Ratings and Alerts

No rating or validation information has been found for Scientific Review Committee.

No alerts have been found for Scientific Review Committee.
