eagle-i research resource ontology (RRID:SCR_008784)

Resource Information

URL: http://code.google.com/p/eagle-i/

Proper Citation: eagle-i research resource ontology (RRID:SCR_008784)

Description: Ontology that models research resources such as instruments, protocols, reagents, animal models and biospecimens. It has been developed in the context of the eagle-i project (http://eagle-i.net/) and consists of over 3451 classes of which over 1200 were created within the ERO namespace, while the rest come from existent ontologies such as the Ontology for Biomedical Investigation (OBI), the uber-anatomy ontology (Uberon), VIVO, the Ontology for Clinical Research (OCRe), the Sequence Ontology (SO), the Software Ontology (SWO) and we include terms from the NCBI Taxonomy as well. The main ontology can be browsed in OntoBee. All purls resolve to OntoBee.

Abbreviations: ERO

Resource Type: data repository, source code, software application, storage service resource, software resource, database, controlled vocabulary, service resource, data or information resource, ontology

Keywords: research, resource, biomedical, owl

Funding: ARRA ;
