**Proper Citation:** Harvard FAS Center for Brain Science - Neuroengineering Core Facility  
(RRID:SCR\_009841)

**Description:** Core facility that provides the following services: Access to fabrication lab. Technological advances hold a key to greater understanding of the structure and function of complex neural circuits. Neuroengineering is a core facility that provides customized engineering solutions to neuroscience problems faced by our members. Assistance with experimental design, electronics, machining, and software development, are all services provided.

**Resource Type:** access service resource, core facility, service resource

**Keywords:** instrumentation fabrication, instrumentation fabrication
