**Proper Citation:** MobileWorks (RRID:SCR\_011056)

**Description:** THIS RESOURCE IS OUT OF SERVICE, documented on February 3rd, 2022. Experiments generate millions of datapoints, hours of video, or terabytes of images. Manually coding or classifying large datasets can require thousands of hours of time that are better spent elsewhere. MobileWorks uses a crowd of thousands of trained individuals worldwide to carry out accurate data classification, labeling, and coding on demand. We can process images, audio and video data reliably according to your criteria. We use strict filtering and testing algorithms to verify that your labeling processes are followed precisely. Each label is produced through agreement by two or more individuals working in parallel and algorithmically verified.
