URL: http://www.scienceexchange.com/facilities/proteomics-shared-resource-facility-brown

**Proper Citation:** Brown Proteomics Shared Resource Facility (RRID:SCR\_012219)

**Description:** THIS RESOURCE IS NO LONGER IN SERVICE. Documented on April 25,2024. Proteomics Shared Resource Facility's mission is to provide well-maintained, state-of-the-art instrumentation and fundamental proteomics expertise to the Brown University and Rhode Island-EPSCoR scientific communities. It aims to be a focal point of intellectual activity in proteomics by enabling nationally recognized proteomics research within Rhode Island. As an NSF EPSCoR funded laboratory, the Proteomics Facility has a broadly-inclusive philosophy to ensure rapid and equal access to the facility's services for the entire Rhode Island research community. In addition to the acquisition of instrumentation, the Proteomics Core Facility will undertake the training of research in emerging proteomic techniques, a component that is essential to maintaining a productive and professional level of service. The Proteomics Facility has a strong commitment to be at the leading edge of current and developing technologies and provides consultation on their application.

**Synonyms:** Brown University Proteomics Shared Resource Facility

Resource Type: access service resource, core facility, service resource

**Keywords:** circular dichroism spectroscopy, differential scanning calorimetry, high-performance liquid chromatography, isothermal titration calorimetry, liquid chromatography, mass spectrometry, mass spectrometry protein sequencing, multidimensional protein identification technology, mass spectrometry, protein purification, proteomics, consulting, sodium dodecyl sulfate polyacrylamide gel electrophoresis, spectrofluorimetry
