ECIS Model

RRID:SCR_016367

Type: Tool

Proper Citation

ECIS Model (RRID:SCR_016367)

Resource Information

URL: <http://biophysics.com>

Proper Citation: ECIS Model (RRID:SCR_016367)

Description: Instrument that electronically monitors cells grown in tissue culture. It is a real-time, label-free, impedance-based method to study the activities of cells. Used for analysis in cell biological dynamics for cells that do not form tight monolayers such as cancer cell lines. The system supports communication to a PC, allowing data acquisition, analysis, and storage.

Abbreviations: ECIS

Synonyms: Electric Cell-substrate Impedance Sensing Model, Electric Cell-substrate Impedance Sensing

Resource Type: data analysis software, data management software, data acquisition software, software application, data processing software, software resource

Keywords: instrument, Applied BioPhysics, cell, morphological, biosensor, tissue, culture, migration, growth, analyze, laboratory, equipment, hardware

Availability: Commercially available

Resource Name: ECIS Model

Resource ID: SCR_016367

Record Creation Time: 20220129T080330+0000

Record Last Update: 20260801T190537+0000

Ratings and Alerts

No rating or validation information has been found for ECIS Model.

No alerts have been found for ECIS Model.
