SARS-CoV-2 mutation effects and 3D structure prediction from sequence covariation

RRID:SCR_018759

Type: Tool

Proper Citation

SARS-CoV-2 mutation effects and 3D structure prediction from sequence covariation (RRID:SCR_018759)

Resource Information

URL: <https://marks.hms.harvard.edu/sars-cov-2/>

Proper Citation: SARS-CoV-2 mutation effects and 3D structure prediction from sequence covariation (RRID:SCR_018759)

Description: Portal for quantitative models using virus sequence variation to predict mutation effects for SARS-CoV-2 proteins, alignments to homologs in other viruses, 3D structures, evolutionarily coupled residues and structure predictions.

Resource Type: portal, topical portal, disease-related portal, data or information resource

Keywords: SARS-CoV-2, in silico mutation scan, 3D contact prediction, COVID-19, virus sequence variation, mutation prediction, SARS-CoV-2 protein, alignment, 3D structure, structure prediction

Related Condition: COVID-19

Availability: Free, Available for download, Freely available

Resource Name: SARS-CoV-2 mutation effects and 3D structure prediction from sequence covariation

Resource ID: SCR_018759

Record Creation Time: 20220129T080341+0000

Record Last Update: 20260807T042929+0000

Ratings and Alerts

No rating or validation information has been found for SARS-CoV-2 mutation effects and 3D structure prediction from sequence covariation.

No alerts have been found for SARS-CoV-2 mutation effects and 3D structure prediction from sequence covariation.

Data and Source Information
