Proper Citation: LocoWhisk project (RRID:SCR_021430)

Description: Portable behavioural set up that incorporates both gait analysis (using pedobarograph) and whisker movements (using high speed video camera and infrared light source). Automatically records both whisker and gait information and provides added statistical tools to analyse data. LocoWhisk system includes ARTv2 software for simultaneous measurement of locomotion behaviours and whisker movements.

Synonyms: LocoWhisk

Resource Type: data or information resource, instrument resource, project portal, portal
