Proper Citation: LabChart (RRID:SCR_023643)

Description: LabChart data analysis software creates platform for all of your recording devices to work together, allowing you to acquire biological signals from multiple sources simultaneously and apply advanced calculations and plots as your experiment unfolds. Used for collection and analysis of signals. Recommended for researchers and educators who want the capabilities without modules and automation of specific measurements.

Resource Type: software application, software resource, data analysis software, data processing software

Keywords: LabChart, data analysis, collection and analysis of signals, specific measurements without modules and automation,

Resource Name: LabChart

Resource ID: SCR_023643

Record Creation Time: 20230602T050209+0000

Record Last Update: 20260729T044557+0000
