Proper Citation: Lunenfeld-Tanenbaum Research Institute Network Biology Collaborative Centre Advanced Imaging Core Facility (RRID:SCR_025389)

Description: Advanced imaging facility for microscopy needs where users have access to technologies in advanced microscopy. Services include consultation on experimental design, advice on appropriate systems, training and support for assisted and unassisted use, as well as help with data analysis and image generation for publications. Applications include Fluorescence and brightfield image acquisition; Whole-slide scanning; Dynamic live-cell imaging; Super-resolution imaging.
