DecisionLinnc Data Science Platform

RRID:SCR_026971

Type: Tool

Proper Citation

DecisionLinnc Data Science Platform (RRID:SCR_026971)

Resource Information

URL: <https://www.statsape.com>

Proper Citation: DecisionLinnc Data Science Platform (RRID:SCR_026971)

Description: Web platform that integrates multiple programming language environments and enables data processing, data analysis, and machine learning through visual interface.

Resource Type: web application, software resource

Keywords: multiple programming language environments, visual interface, data processing, data analysis,

Availability: Restricted

Resource Name: DecisionLinnc Data Science Platform

Resource ID: SCR_026971

Record Creation Time: 20250522T060227+0000

Record Last Update: 20260815T183256+0000

Ratings and Alerts

No rating or validation information has been found for DecisionLinnc Data Science Platform.

No alerts have been found for DecisionLinnc Data Science Platform.

Data and Source Information

Usage and Citation Metrics

We found 29 mentions in open access literature.

Listed below are recent publications. The full list is available at [dkNET](#) .

Li Z, et al. (2026) Associations of lactate-to-hematocrit ratio with short- and long-term prognoses in critically ill patients with respiratory failure: A retrospective cohort study. *Medicine*, 105(16), e48328.

Liu T, et al. (2026) Association Between Uric Acid-to-HDL Cholesterol Ratio and Sarcopenia: Sex-Specific Patterns From NHANES 2011-2018. *International journal of endocrinology*, 2026, 9746996.

Chen J, et al. (2026) Impact of central venous pressure trajectories on prognosis in ICU patients with sepsis. *Scientific reports*, 16(1).

Han Y, et al. (2026) Association of serum vitamin D and serum vitamin C with the risk of melanoma among adults in the United States: a cross-sectional analysis of 2003-2006 and 2017-2018 NHANES data. *Journal of clinical biochemistry and nutrition*, 78(3), 219.

Chen S, et al. (2026) Joint analysis of hemoglobin-to-RDW and creatinine-to-albumin ratios for mortality prediction in critical heart failure. *iScience*, 29(5), 115740.

He M, et al. (2026) Association between serum lipids and colorectal polyps: a retrospective cross-sectional study. *International journal of colorectal disease*, 41(1), 20.

Zhang P, et al. (2026) Development of a prediction model for the risk of prolonged ICU length of stay in patients undergoing coronary artery bypass surgery: A retrospective analysis based on the MIMIC-IV database. *Medicine*, 105(14), e48224.

Zhang X, et al. (2026) An Interpretable AdaBoost Model for 1-Year Readmission Risk Prediction in AECOPD Patients with Hypertension. *International journal of chronic obstructive pulmonary disease*, 21, 557298.

Liu P, et al. (2026) The weight-adjusted-waist index is positively associated with metabolic dysfunction-associated fatty liver disease in US adults: A cross-sectional NHANES Study. *Science progress*, 109(1), 368504261420942.

Jiang Z, et al. (2026) Association of problematic short-video use with adolescent depression: a cross-sectional study and machine learning identification model construction. *BMC psychiatry*, 26(1).

Wang J, et al. (2026) Association between the development of sepsis and the BAR index in patients with acute pancreatitis: A retrospective investigation based on MIMIC-IV database. *Medicine*, 105(22), e49043.

Shen D, et al. (2025) Identification of multiple complications as independent risk factors associated with 1-, 3-, and 5-year mortality in hepatitis B-associated cirrhosis patients. *BMC infectious diseases*, 25(1), 151.

Zhang P, et al. (2025) Association of the stress hyperglycemia ratio (SHR) with 90-day and 180-day all-cause mortality in patients undergoing coronary artery bypass grafting (CABG) for acute myocardial infarction (AMI): A retrospective cohort study using the MIMIC-IV database. *Medicine*, 104(41), e45022.

Li M, et al. (2025) The association between the intensity of physical activity and the risk of sarcopenia in adolescents: NHANES 2011-2018. *BMC pediatrics*, 25(1), 474.

Ma Y, et al. (2025) Association between lactate-to-albumin ratio and all-cause mortality in critically ill cirrhotic patients with sepsis: a retrospective analysis of the MIMIC-IV database. *BMC gastroenterology*, 25(1), 112.

Huang X, et al. (2025) Postpartum depression risk prediction using explainable machine learning algorithms. *Frontiers in medicine*, 12, 1565374.

Han Y, et al. (2025) Linear inverse association between prognostic nutritional index and colorectal cancer risk based on NHANES data. *Scientific reports*, 15(1), 25647.

Pan M, et al. (2025) Prognostic nutritional index as a potential predictor of prognosis in patients with sepsis: a retrospective cohort study. *Frontiers in nutrition*, 12, 1600943.

Chen X, et al. (2025) The association between physical activity and lung function in adolescents: a cross-sectional NHANES study. *Frontiers in medicine*, 12, 1538221.

Li B, et al. (2025) Association between serum uric acid to high-density lipoprotein cholesterol ratio (UHR) and abdominal aortic calcification: a cross-sectional study based on NHANES 2013-2014. *Frontiers in cardiovascular medicine*, 12, 1560022.
