Tracker

RRID:SCR_027845

Type: Tool

Proper Citation

Tracker (RRID:SCR_027845)

Resource Information

URL: <https://opensourcephysics.github.io/tracker-website/>

Proper Citation: Tracker (RRID:SCR_027845)

Description: Software video analysis and modeling tool developed within the Open Source Physics (OSP) Java framework. Allows frame-by-frame tracking of anatomical landmarks and articulated structures from video recordings, enabling the extraction of time-dependent kinematic variables such as displacement, velocity, and acceleration. Tracker is well suited for biomechanical analyses of articulated systems, as it supports joint-based rotations, reference-frame definition, and the export of quantitative motion data for further post-processing.

Synonyms: Tracker Video Analysis and Modeling

Resource Type: software application, software resource

Keywords: frame-by-frame tracking, anatomical landmarks and articulated structures, video recordings, extraction of time-dependent kinematic variables,

Availability: Free, Available for download, Freely available

Resource Name: Tracker

Resource ID: SCR_027845

Record Creation Time: 20260103T054312+0000

Record Last Update: 20260815T183309+0000

Ratings and Alerts

No rating or validation information has been found for Tracker.

No alerts have been found for Tracker.
