Proper Citation: VPixx: VIEWPixx system (RRID:SCR_027888)

Description: Specialized monitor engineered for scientific rigor, replacing consumer displays with research-grade control and synchronization for visual experiments. Features high-performance industrial LCD glass, and a panel controller which has been custom designed to support vision research. Includes an array of peripherals which often need to be synchronized to video during an experiment, including stereo audio stimulator, button box port for precise reaction-time measurement, triggers for electrophysiology equipment, and complete analog I/O subsystem.

Synonyms: VIEWPixx

Resource Type: instrument resource

Keywords: Specialized monitor, research-grade control and synchronization, visual experiments, industrial LCD glass, panel controller, stereo audio stimulator, precise reaction-time measurement, triggers for electrophysiology equipment,
