Proper Citation: GOLD (RRID:SCR_000188)

Description: A software for virtual screening and identifying the binding mode of active molecules. It is comprehensively validated, widely used, and allows for high database enrichments. The software utilizes a novel methodology which avoids computationally expensive sequential docking of ligands into multiple protein structures.

Abbreviations: GOLD

Resource Type: software resource

Keywords: virtual screening, binding, active molecules, ligand-protein bonding, computation,

protein structures, lead optimization

Funding:

Availability: Public, Open Source

Resource Name: GOLD

Resource ID: SCR_000188

Alternate IDs: OMICS_01602

License URLs: http://www.ccdc.cam.ac.uk/TermsAndConditions/

Record Creation Time: 20220129T080200+0000

Record Last Update: 20250420T013933+0000

Ratings and Alerts

No rating or validation information has been found for GOLD.

No alerts have been found for GOLD.
