### Resource Information

**URL:** <http://www.globalhealthlibrary.net/php/index.php>

**Proper Citation:** World Health Organization: The Global Health Library (RRID:SCR\_000391)

**Description:** The Global Health Library assembles health data, readable in many languages. The GHL aims to: \* point to reliable information collections and systems, in which different users and user groups (ministries of health, policy makers, health workers, information providers, patients and their families, general public) can focus on the knowledge that best meets their health information needs; \* act as a facilitator enabling access to information contents produced by numerous key providers - be they commercial companies, government institutions, civil society, not-for-profit organizations, and regional or international bodies; and \* strive for universality, with focus on developing countries, and will act as a resource locator for print materials essential to areas that do not have access to electronic content.

**Synonyms:** GHL

**Resource Type:** data or information resource, portal, topical portal, bibliography

**Keywords:** clinical, health, human, people

**Funding:**

**Resource Name:** World Health Organization: The Global Health Library

**Resource ID:** SCR\_000391
