Description: System for automatically extracting, analyzing, visualizing and integrating molecular pathway data from the research literature. System focuses on interactions between molecular substances and actions, providing a graphical consensus view on the collected information. GeneWays is designed as open platform, allowing researchers to query, review and critique integrated information.

Abbreviations: Geneways

Synonyms: GeneWays: A System for Extracting Analyzing Visualizing and Integrating Molecular Pathway Data, GeneWays: A System for Extracting Analyzing Visualizing Integrating Molecular Pathway Data
