Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on September 23, 2022. Database of physiologic data and associated metadata related to feeding behavior for a number of mammalian species, including human. The data contain information on muscle activity, bone and muscle strain, jaw and oropharyngeal apparatus motion, and intra-oral pressure and were generated using several techniques (e.g., electromyography, cineradiography, sonomicrometry). The data are searchable and can be downloaded into csv format.

Abbreviations: FEED

Synonyms: FEED: Feeding Experiments End-User Database, Feeding Experiments End-User Database

Resource Type: database, data or information resource

Defining Citation: [PMID:21700574](#)

Keywords: appetitive activity, comparative anatomy, feeding behavior, muscle, pharynx, teeth, ontology, evolution, functional morphology, physiology, development, head, behavior, mouth, oral

Funding: NESCent - National Evolutionary Synthesis Center

Availability: THIS RESOURCE IS NO LONGER IN SERVICE
