Abysis Database

RRID:SCR_000756 Type: Tool

Proper Citation

Abysis Database (RRID:SCR_000756)

Resource Information

URL: http://www.bioinf.org.uk/abs/

Proper Citation: Abysis Database (RRID:SCR_000756)

Description: A database of antibody structure containing sequences from Kabat, IMGT and the Protein Databank (PDB), as well as structure data from the PDB. It provides search of the sequence data on various criteria and display of results in different formats. For data from the PDB, sequence searches can be combined with structural constraints. For example, one can ask for all the antibodies with a 10-residue Kabat CDR-L1 with a serine at H23 and an arginine within 10A of H36. The site also has software for structure analysis and other information on antibody structure available.

Synonyms: Abysis

Resource Type: database, data or information resource

Keywords: antibody, protein structure, software

Funding:

Resource Name: Abysis Database

Resource ID: SCR_000756

Alternate IDs: nif-0000-20947

Record Creation Time: 20220129T080203+0000

Record Last Update: 20250517T055442+0000

Ratings and Alerts

No rating or validation information has been found for Abysis Database.

No alerts have been found for Abysis Database.
