## Folic Acid for Vascular Outcome Reduction in Transplantation

RRID:SCR\_001505

Type: Tool

### Proper Citation

Folic Acid for Vascular Outcome Reduction in Transplantation (RRID:SCR\_001505)

### Resource Information

**URL:** <https://www.clinicaltrials.gov/study/NCT00064753>

**Proper Citation:** Folic Acid for Vascular Outcome Reduction in Transplantation (RRID:SCR\_001505)

**Description:** Multi-center, randomized, double blind controlled clinical trial to determine whether treatment with a standard multivitamin augmented with high doses of folic acid, vitamin B6 and vitamin B12 reduces the rate of cardiovascular disease outcomes in renal transplant recipients relative to participants receiving a similar multivitamin that contains no folic acid. This study hopes to show that by reducing the level of homocysteine in the body, the risk of heart disease is also reduced among kidney transplant patients.

**Abbreviations:** FAVORIT

**Synonyms:** Folic Acid for Vascular Outcome Reduction in Transplantation (FAVORIT)

**Resource Type:** clinical trial, resource

**Defining Citation:** [PMID:16923411](#)

**Keywords:** multivitamin, folic acid, vitamin b6, vitamin b12, outcome, homocysteine, adult human, middle adult human, late adult human, vitamin, bibliography

**Related Condition:** Cardiovascular disease, Kidney transplant recipient

**Funding:** NIDDK U01DK061700

**Availability:** Free, Freely available

**Resource Name:** Folic Acid for Vascular Outcome Reduction in Transplantation

**Resource ID:** SCR\_001505

**Alternate IDs:** nlx\_152827

**Alternate URLs:** <http://www.csc.unc.edu/favorit/>

**Old URLs:** <http://www.csc.unc.edu/favorit/favdescrip.htm>

**Record Creation Time:** 20220129T080207+0000

**Record Last Update:** 20260821T193631+0000

---

## Ratings and Alerts

No rating or validation information has been found for Folic Acid for Vascular Outcome Reduction in Transplantation .

No alerts have been found for Folic Acid for Vascular Outcome Reduction in Transplantation .
