Proper Citation: WordPress (RRID:SCR_001518)

Description: Web software which helps users create a website or blog. WordPress software can be downloaded and installed with an appropriate web host and minimum requirements. There is also a service called WordPress.com which allows users to get started with a new and free WordPress-based blog in seconds, though it varies in several ways and is less flexible than the self-installed WordPress. An array of plugins and themes are available to further customize a site.

Synonyms: WordPress.org
